Brian McClaskey  
11405 West Rd Roswell, GA 30075  
404-820-7175

- (17) buckets of latex based paint

### Equipment

Two skid steers with grappling buckets  
30 yard containers

### Disposal Sites

Cherokee C and D Landfills  
Cobb County Solid Waste Facility

### Solid Waste Disposal Process

All solid waste will be loaded by Joe Mele Trucking LLC into 30 yd roll off containers using (2) skid steers with grappling buckets and transported to Cherokee C and D Landfill for disposal.

### Waste Paint Disposal Process

The (4) 55 gallon drums of latex based paint and (20) 5 gallon buckets of latex based paint will be pumped into (2-3) 250 gallon IBC containers and mixed with dry soil. Once dried, they will be loaded into 30 yd dumpsters and transferred to Cherokee C and D landfill. (8) 5 gallon buckets of oil based paint will be loaded into Jesup Harris' pick up truck lined with plastic and transferred to Cobb County Solid Waste Facility at a cost of \$5/gallon for disposal.

### Timeline

08.20.24-08.23.24 : Joe Mele Trucking LLC will be operating skid steers with grappling buckets to pick up solid waste and load into 30 yard containers that will be taken to Cherokee C and D landfill, located off Ball Ground Hwy, approximately 5 minutes from 934 Mae Belle Ln.

The individuals picking up reusable materials have made plans to pick up materials before September 12th, 2024. If any materials remain, Jesup Harris will be responsible for disposal.

All vehicles transporting any liquid materials will be lined with plastic preventing any potential leakage.

### Overall Summary

All waste located on 934 Mae Belle Ln will be removed and properly transported and disposed of by September 15th, 2024. Included above, is a breakdown of contractors, equipment, disposal sites and timeline for this clean up.
