

NOTIFICATION OF A SPILL

This letter serves as a notice to the citizens of Rochelle, Georgia that a spill occurred at the manhole in the area of Ginhouse Street at Sook Road. As of the morning of Monday, February 12th this spill included the release of raw sewage water in the approximate amount of less than 5,000 gallons onto the ground surrounding the manhole. This discharge was caused by the heavy rainfall that was received in our city. There has been no solid waste released, the spill has been limited to the seepage of liquid. As the rain continues we are monitoring the situation and will take necessary steps to mitigate the spill as soon as possible.

Wayne McGuinty, Mayor
City of Rochelle
